## Isotopes for cancer and cardiac care

Eva Birnbaum of the Office of Science, the Lab's program manager for isotope production, discussed the Laboratory's work producing radioactive isotopes to meet national needs in medicine, industry and academia in a [Santa Fe Radio Cafe](#) interview. Listen to the [interview](#) online on KSFR.

The interview is one of a series of interviews with Laboratory scientists on Santa Fe Radio Cafe's "Science Radio Cafe" segment that airs the first Tuesday of the month on [KSFR](#).

[Listen now.](#)

Host: Mary-Charlotte Domandi - Feb. 2, 2016
